Daniel Nadler
CEO
Kensho Finance

Bringing technology to the masses – is the era of the quants over?

The financial world is at a critical inflection point when it comes to new technologies.

If you haven't already heard of Kensho Finance you will soon. They are about to level the playing field and enable retail investors the ability to use sophisticated modeling tools to liberate investors and funds from excel.

Hear how Daniel and his former MIT classmates stumbled upon this idea, and the ramifications for the financial and trading world.

Manoj Narang
CEO
Tradeworx

Is HFT dead? An outlook on the future of the financial markets

Manoj has led Tradeworx to become a leader in automated trading. Their market neutral US equity hedge fund (Ultra-Select), prop trading HFT strategies and technology arm (Thesys), have become world renowned. Recently they were even sought out by the U.S. SEC to collaborate on regulating rapid speed trades.

Hear one of automated trading's pioneers shed light on the viability of the "HFT edge."

Marcos Lopez de Prado
Head of Quantitative
Trading & Research
Hess Energy Trading
Company

How long does it take to recover from a loss?

Marcos often found himself being asked questions like: when is the right time to fire a trader? When is the right time to give up on a strategy? How long would it take to recover from a loss? As a result, he set out to find the answer...and he believes his research can shed light on these tough calls.

Want to know the magic number? Join his keynote session to find out!

Attilio Meucci
Chief Risk Officer
KKR

Using data-driven quantitative systematic strategies

Attilio is a pioneer in the field of risk and portfolio management. His innovations include Entropy Pooling, Factors on Demand, Effective Numbers of Bets, Fully Flexible Probabilities, and Copula-Marginal Algorithm.

Attend his presentation to learn more about how he marries a statistical approach with big data.

Erik Gordon
Chief Technology Officer
Trillium Trading

The big CTO debate: build vs. buy, identifying new technologies and preparing for the trading evolution

Representing one of the top proprietary trading firms on the East Coast, Erik, Trillium Trading's Chief Technology Officer, is vocal about building their own infrastructure, and the benefits of doing so.

Join Erik's panel session to hear how he and the CTOs from Fortress Investment Group and Tradeworx are preparing for the trading evolution.

Juan Ortega
VP, Market Data
Engineering
Goldman Sachs

Data analytics: using social media as indicators, finding hidden value and leveraging data

Having worked for Jane Street Capital, STAC Research, Barclays Capital, and Thomson Reuters, Juan is one of the most proficient market data engineers in the industry. His experience has fortified his knowledge in high performance and real-time market data systems, as well as high-speed messaging middleware, networking, and systems integration.

Join his roundtable with Capital Management Group and Credit Suisse to find the hidden value in social media.

Don't just take our word for it...

The Trading Show New York is the one-stop shop for the entire trading community. But don't just take our word for it! Here is what some of the past attendees to our Trading Show series of events had to say:

"The Trading Show is the single most significant event for the North American electronic trading community. I am continually impressed by the distinguished speaker faculty, cutting-edge content, and prolific networking opportunities available. It is both educationally and commercially valuable for attendees and remains a must-attend event."

Ram Ahluwalia, Principal, **Winged Foot Capital**

"The Trading Show is an ideal venue for networking with members of the trading community. The panels and speeches offer very relevant and timely material on the current state of the trading world!"

Alexander Fleiss, Chairman & CIO, **Rebellion Research**

"My experience at Terrapinn's Trading Show has always been a productive and pleasurable one. The event is always thoroughly planned, and the Speed Networking sessions are very valuable business wise. Highly recommended."

Dr. Karim. Taleb, Managing Partner, **Robust Methods**
